## Multi-domain communications suite

Providing a unified communications suite for Multi-Agency operations

**NEXUS-Multi** is a multi-domain communications suite that's comprehensive, expeditionary, and customizable. It combines all RF bands into a flexible interoperable bridge so agencies with different communications equipment can communicate. NEXUS-Multi is built into a rugged deployable container to allow flexible deployment options. Many models of dissimilar radios are supported and can be linked together into multiple talk groups. NEXUS-Multi ensures **real-time multi-domain collaboration and interoperability**.
